Summary

I have specialized in front-end development. And now I am working as a Full Stack developer. Experienced with all stages of the development of dynamic web projects. Well-versed in numerous technologies and tools HTML5, JavaScript, CSS, MySQL, MSSQL, MongoDB, Angular, Laravel Asp.net MVC, Asp.Net Web-API, and Nodejs. I am ready to learn new technology and tools. I am ready to learn new technology and tools

Skill Highlights

Angular:- I can create a fresh project by installing angular and nodejs , and creating a component, services, and integrating API and performing differentTasks.Convert HTML into the angular component. Also, work with typescript the angular as off now I am working with typescript with angular

Laravel:- During working as a full stack developer I also create a backend in Laravel at the basic level and create an API init., so, therefore, I know the basics of Laravel, install Laravel, composer, used PHP artisan command (Note:Do don't have hand-onexperience).

Nodejs:- As a developer learning new technology is required and my company allows me to learn the Nodejs,so therefore I start learningNodejs,I learn installation, and create API basics using MVC structure. (Note:Do don't have hand-onexperience)

Asp.Net : -As a full stack developer also working onn asp.net webAPI. I know how to createe MVC projects and web API

Database :- MSSQL,MYSQL MongoDB (basics)

Tools:- GitHub , Bitbuckets ,Trello ,Slack, Jira

Other Technologies:- DOPWIZARD, basic of Java

Experience

Total Experience(3.3 year)

Web -design –(Work with different company, Most working on theme customizing for 1 years)

During work with this different company I have theme customizing and basic of html, CSS, bootstrap ,basic JS.

Full Stack developer – Vagisa technology (Angular+Asp.net web API, Asp.net mcv, NodeJS) from (23/3/2021-10-6-2022) During work the Vagisa technology ,I got in-depth knowledge of angular and also how to work in MVC project and web API

Full Stack developer – Srishti innovative (Angular) from (13/06/2022-15/12/2022) During work the Srishti innovative ,I got in-depth knowledge of angular and also software and better understanding of integrating API perform the logics

Senior Software developer – Uni-abroad (Angular & laravel)(5/12/2022-20/3/2023) During work the – Uni-abroad,I got in-depth knowledge of angular and also how to work in MVC project and web API

Angular developer(Freelancing) – lan4 Solution (Angular)(01/06/2023 -01/07/2023) During work the – lane 4 solution, I work with UI were I have to integrate the HTML,CSS part into angular and create the angular component according to requirement and also solved the bugs onsite UI bugs , also create API in NodeJS and Laravel , solve the API bugs and test API, then integrate the API by create the end-point service and perform the logic according to design and SRS(System Requirement Specification document given to me)

Note : I don't have hand-on experience in node js and laravel but I create the API in both technology by doing the re-search and development

Education

DEGREE	YEAR	NAMEOFINSTITUTE	UNIVERSITY /BOARD	CPI
